THE BOOK OF BULBS
By Frederick Frye Rockwell states: "You can have bulbs bloom throughout the entire year. Starting with Snowdrops, Scillas, Grape hyacinths in early spring, they follow through a constant succession; Daffodils, Tulips Bulbous irises, hardy lilies, tuberous begonias, cannas, dahlias - until killing frost in September or October. And in November, with very little trouble, in any ordinary sunny living-room you can have the first of your winter-bulb blooms with a succession of them until the following Easter." You certainly should have a copy. Postpaid \$3.00
